WELCOME

PCCCA's coaching programs are life transforming, both professionally and personally. If you dream of helping others live happier, healthier and more productive lives, as you significantly improve your own life, Spirit-led, Christian life coaching is the answer.

As a life coach, you'll help clients find their purpose and God-given vision, then partner with them to achieve their goals. You'll help them learn to manage their mind and emotions so life improves on every level.

As a result, they feel great and you are fulfilled by living your calling to help others. And more importantly, God is glorified for the results.

My goal is for you to receive the most effective coach training available anywhere. Your work will continue the ripple effect of lives changed and transformed as a witness to God's loving hand in the world.

You are needed now. Will you answer this call?

Love and blessings,

Leelo Bush, PhD

ABOUT

When the The Professional Christian Coaching and Counseling Academy was founded in 2003, our goal was to become the choice for Christian coach training, rather only a choice. We have continued over the years to work toward the excellence this requires. Not only excellence from us as an academy, but also excellence from each of our students and graduates.

We understand that the investment in your future is the one, single most important investment you can make. No one can ever take your knowledge away from you. As you honor God by increasing your skills, you will receive favor and blessing with increased territory and opportunities.

Consider when you want the best college education, you select an "ivy league" school. The *annual* tuition and living expense budget to attend Harvard was $71,650 for 2018/2019, making a 4 year degree 286,600! Yet, you will graduate with no guarantee of a job.

When you graduate from this academy, you'll receive dual certifications with knowledge on how to create a professional coaching practice / business so you can determine your income based on your own goals and efforts. As an alumni member you'll continue to receive "forever" support from this academy.

PCCCA courses are offered affordably in our exclusive, online learning platform at https://myclasslogin.com where you have the freedom and flexibility to study at your own pace, without ever leaving home.

Come join us. Your life will change as well as the lives of everyone you coach.

THE EXPERIENCE

Each module contains thorough training on the subject matter presented. Your training will include video, audio, reading assignments, study guides to complete in each module. We also include a private forum with students, trainers and alumni to support your progress,

Section 1 - Experience coaching and optimize your own life.

Section 2 - Learn 10 Christian Coaching Proficiencies, in-depth coaching models and structures to support your clients' progress.

Section 3 - Learn and begin to implement business and marketing concepts so that you attract your ideal clients.

Practicum - You will experience coaching others so that you are ready to work with your future clients. Many students already have paying clients during this time.

We prepare you to successfully complete your certification and earn your credentials.

DUAL CERTIFICATION

On graduation you are awarded two certificates . They are:

Certified Christian Life Coach

Certified Professional Life Coach

Why do you receive both?

First, you receive both because you qualify to coach anyone, in any professional environment regardless of their faith.

Second, we want to ensure you have the correct credential for whatever environment you feel called to work in, be it Christian / ministry or secular / non-faith related.

We don't know of any other school that offers you the breadth of skills and knowledge to qualify for two credentials for completing one course.

CONTINUING EDUCATION

By becoming a life coach, you are committing to lifelong learning.

This is necessary for you to stay informed of changes in our industry and the growth of our profession.

Even though the scriptural foundation of our program will not change because God's word does not change, developments in the research about our mind and emotions continues.

As a professional, you owe it to yourself and those you work with to be knowledgeable about all of these important developments.

We will keep you informed by adding new resources and updating your course contents as needed.

You will have "forever" access to course contents and support.

If you are looking for specific, niche training, we offer additional coach training and certification programs on popular, high-demand topics such as Stress Relief, Joy Restoration, business topics and more.

ACCREDITATION

As a prospective coaching student, it's crucial you understand there is no regulation nor neutral, regulating bodies in the coaching industry. Be wary of any person or group claiming to be official authorities.

While there are many types of coaching, there exist several private organizations that attempt to regulate their own type of coaching. These groups have created rules and membership standards that some schools and students voluntarily join and pay fees to.

You are free to choose the type of coach training you want and the type of coaching you wish to practice. These choices are YOURS and yours alone. Agreement with the worldview, faith and training philosophies of a coach training school is far more important than whose certificate hangs on your wall.

PCCCA stands for freedom, flexibility and autonomy. We at PCCCA have not and will not apply for accreditation to ICF or any other association that claims to regulate the coaching industry. PCCCA proprietary coaching models honor God first and as such, we believe offer the most powerful coaching available to mankind. Our methods are proven and have set a higher bar for our expectations and standards.

We are however accredited by ICEC, verifying our training is biblically sound and accurate. This is not the same as coaching accreditation, rather authenticates the faith foundation and integrity of our school and courses.

PCCCA coaches learn to help clients understand how their faith, thoughts and emotions affect their results. Agreement with God's plan accelerates results while humanistic methods / models can frustrate efforts.

Clients hire coaches for their ability to help solve specific problems both skillfully and with integrity. We encourage you to select training that will most effectively help you make the greatest impact.

TUITION

There are three options for paying your tuition:

OPTION 1: You may pay for the course in one payment of $1997 USD in full.

OPTION 2: You may also select the 12 monthly automatic drafts of $178 USD from your debit or credit card.

OPTION 3: The third option is to request a custom tuition payment plan. This is for those who wish to pay in more than one payment and less than 12 payments.

If you would like to stretch out your payments and have more flexibility over the date and amount you pay, you may use PayPal Credit or your own credit card for a one-time payment. Then make future payments to your PayPal Credit account or your card.

You will be charged the initial payment upon enrollment. Future payments occur each 30 days and are automatically drafted in consecutive months.

Your best value always is to make one payment in full. Payment plans incur additional administrative fees because each payment plan requires our investment of time, software and human resources to manage it. But we are happy to provide this service for your convenience.

FINANCIAL - OTHER

Should I anticipate any other expenses?

CERTIFICATION - For those who wish to become certified, there is an optional certification fee, payable at the end of the course, of $200 USD. This covers the exam portal fee, grading your exam, creation of your custom-designed, digitized certificates, registration of your certification and transmission of documents.

The reason the certification fee is paid separately at the end, is that some of our students take the course for personal development and may not see a need to pursue certification. In all fairness, we don't want to charge them for something they may not need.

BUSINESS - Coaching as a business has very little overhead compared to other types of businesses. If you choose to start a coaching practice, you can work from home. Some expenses may include a website, email service, basic office supplies, separate phone number and PO Box for security. This will be covered in much more depth within the course.

Are there options for financial assistance?

We invite you to visit our Reduced Tuition page for programs, sponsorship ideas and coupon codes, if available. https://pccca.org/scholarship-reduced-tuition/

The key is to make a commitment to invest in yourself and your calling.
Make it your #1 top priority. It's not unusual for God to challenge our creativity to test our commitment to His plan. When we show ourselves faithful to the task, He will bless and promote us in ways we can't even imagine.

TIME & LOGISTICS

Can I do the course if I have other commitments?

Many of our students have full or part time jobs, family, church, ministry or community obligations. We understand your needs and have made it easy to include your course in your unique schedule.

Our courses are in fact created for those who want flexibility and freedom. All components of your program are available online. You may login to the training center when it suits your schedule, from anywhere in the world. There are no required calls or meetings to attend.

If you choose to work with a mentor coach, you can schedule your meetings at mutually convenient times.

How much time will the course require?

There are 12 modules and it is suggested you allocate 7 to 10 hours per module. In the latter modules, you may choose to participate in practice-building activities and your coaching practicum. This means the course may require more time when you reach that stage.

What happens if I have a life/family emergency?

We want you to stay on track with your training as much as possible but we also understand life happens. We have removed previous deadline requirements for this reason although we do maintain a suggested timeline for completion. Kindly notify the academy if circumstances may cause a delay or if you need to take time off. Tuition payments need to be paid as agreed to when you enrolled.

ADDITIONAL Q & A

Do you accept students from outside the US?

Yes! We have many students and graduates world-wide on all continents. International students love our online training because it offers the same course access to non-US students as it does to US students. Visit our international student resource page at https://pccca.org/international-student-resources/

Do you have jobs available for graduates?

It has been the long-standing policy of this academy to hire trainers and mentor coaches from among our graduates. Once you have graduated, we would be happy for you to apply for any openings.

What else can I do with my new skills after I graduate?

There truly is no limit to the uses for your new skills. You may use them in your current profession. The credential may open new doors to you that were previously not available. As you learn to manage your mind and emotions, your relationships will benefit.

Many people dive into a lifelong dream of becoming an entrepreneur. Starting and running a coaching practice or business requires you to have an entirely new set of skills. However it also offers you the greatest opportunities.

Your training journey is just the beginning of a new life and new rewards as you meet new challenges. The best version of you and your best life await.

READY TO BEGIN?

3-Step Enrollment Process

1 Your first step is to complete and submit your enrollment form. This may take about 8-10 minutes. Tap to **BEGIN** or visit https://pccca.org/begin/

2 After you submit your enrollment form, the system will redirect you to the tuition page. Here you'll select your preferred tuition option, then use the cart to check out. This can take 3-5 minutes.

3 Once you submit payment, do NOT close the window as the system will redirect you to our online training center, where you will create your (case-sensitive) username and password for course access. If you've already decided your username and 8+ digit password, this will take about 2 minutes.

CONGRATULATIONS, YOU'RE IN!

You may now begin your first module!
